Other Relevant Skills

- Interpersonal skills and good communication
- Team Work and Team building
- Good initiatives in planning and administrative work
- Good computer skills including proficient use in Microsoft Packages

Work Experience

Tutorial Center

- Developed a user-friendly dashboard for both students and instructors.
- Implemented features for course creation, content upload (videos, documents), and progress tracking.

- Designed and managed the PostgreSQL database schema for users, courses, enrollments, and progress.
- Built robust backend APIs to handle user roles, course content delivery, and student data management.
- Ensured secure data handling and user authentication.

TY-CASUAL (E-commerce)

- Assisted in the production of cake boards, ensuring high quality products and meeting production targets.
- Collaborated with colleagues to maintain a safe and working environment.
- Designed and implemented a responsive and intuitive product catalog and detail pages.
- Built a secure shopping cart and checkout process with integrated payment gateway.
- Developed RESTful APIs for product management, user authentication, and order processing.
- Implemented user authentication (registration, login) and authorization using Laravel Sanctum.
- Utilized Redux for efficient state management across the application.
